# Ridiculous Price—Isn't It?

FER

QUART

FRESH MILK

March 16

1932

10N

Unquestionably it is harmful to the Producer-Certainly it is detrimental to the Distributor —but it is undeniably

### Beneficial to the Consumer (TEMPORARILY)

and that's what counts — Buy and use more milk — Always take advantage of every opportunity to save in your buying—it's proper and commendable and rest assured that Safeway will always protect your interests on values.

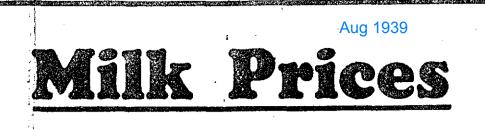

## NOTICE

In spite of these facts and our sincere desire to supply your full requirements, we wish to advise, that Safeway stores are in no way responsible for, or in favor of the present ridiculous prices at which Fresh Milk is being sold in Winnipeg. We stand for "Distribution Without Waste" and are proud to take the lead in all matters compatible with comunity interests, but are very reluctant even to follow in matters destructive, as we believe this to be.

We are selling Milk—good milk at 6c per quart to be sure, and we will sell it at 5c or 4c or lower if necessary, in order to protect the interests of our customers but nevertheless we deplore the situation and feel that any consumer in Winnipeg is favorable to paying more than 6c per quart for good milk towards the preservation of an industry so vital to society and the economic interests of the community, as is the Dairy Industry of Manitoba.
